June 23, 1989; 8:52 am - Sue Kennedy of E&E called me back and we discussed Richardson Flat.

Sue was wondering whether we had verified the dates for the Richardson Flat site visit with UPCM yet. I said no but I would check with Sandra and Gene. The E&E crew needs to plan their trip logistics.

Sandra M: If you haven't already, could you check out the dates with UPCM today or Monday and let me know?
